Online Registration Guide

Do not register until the 1st of the month for the month your swimmer is starting. For example, if your swimmer is starting in November, the first day you may complete online registration is November 1st. If you register in October for November, you will be billed for October too.

If registering a Masters swimmer and a child swimmer in the same account, the account must be set up under the adult who will be swimming. If you are setting up the account, but are not the swimming adult, you will be able to add your contact information as a second contact to receive club communication.

If you select Pay Amount Due Now (\$62), you must electronically pay these fees immediately when you check out and drop off your first month's dues at the pool before your swimmer may start swimming.

Select bill me automatically--your online account (credit card or electronic check) will automatically be charged each month.

Bill me manually each month--you will receive a notice when payment is due and you will need to make your payment with your online account (credit card or electronic check) on the 1st of each month or drop payment at the pool, or mail payment to LSC by the 20th of the month before the month of swimming. LSC required pre-payment, so dues must be paid before a swimmer swims that month.

If you select Pay (total for selected group and fees) Now, you will electronically pay for fees and your first month's dues immediately when you check out.
